

DIY Pipe Cleaner Tic Tac Toe

By: Makeandtakes.com

SUPPLIES

- 1) 6—Pipe Cleaners (2 of 3 different colors)
- 2) Scissors

MAKE THE GRID

- 1) Cut two pipe cleaners of one color in half to make 4 even lengths.
- 2) Cross two of those pipe cleaners over each other 1/3 of the way down and twist together.
- 3) Twist another pipe cleaner of the same color 1/3 of the way down on one end of the first two crossed pipe cleaners.
- 4) Then, twist the fourth pipe cleaner of that color 1/3 of the way down on the other side of the first two crossed pipe cleaners.
- 5) Finally, twist the last two ends of the connected pipe cleaners 1/3 of the way down one each side of the bunch. See pictures for reference.
- 6) For the O's, choose a color and cut each pipe cleaner in to 4 equal parts and twist the ends of each part to form an O.
- 7) For the X's, use the last color and cut each pipe cleaner into 4 equal parts. Take two of the small parts, cross them in the middle and twist them together. Repeat this until you run out of small parts.
